

YOU PILOT

WiTOF[®]

The only wireless TOF station

Pilot neuromuscular blockade
with confidence and peace of mind

idmed
an eye on your patient

NMT MONITORING

WiTOF®

Wireless TOF station

Intuitive handling

- User-friendly
- Simplified and continuous monitoring

Trend curve of the neuromuscular blockade

- Graphic interface for precise control of the depth of block
- Anticipate the recovery and manage well the antagonism
- Set up alerts to warn the user of the actual level of blockade

No calibration required

- Automatic TOF/PTC mode (ATP)
- Objective and reliable measurements

Secure wireless transmission

- Simplify accessibility to the hand or foot of the patient
- Optimal monitor positioning in the operating theatre

Optimal electrical stimulations

- Set inter-electrode distance
- Coloured flashes for a continuous control of the patient impedance
